C. WESLEY LYONS, MAYOR

Fifty-ninth Annual Report

OF THE

CITY OF ROCHESTER

NEW HAMPSHIRE

For the Year Ending December 31st Nineteen Hundred and Fifty

Printed by
THE RECORD PRESS
Rochester, N. H.

INAUGURAL ADDRESS

by C. Wesley Lyons, Mayor

Gentlemen of the Council:

In 1891, the City of Rochester received its Charter and from that time when we were organized as a city, or even from the time that we became a town in 1737, it has not only been the right but has been the privilege of the individual citizens each year to choose at their city elections, those from their members whom they desired to conduct the affairs of their municipality. I wonder if we fully appreciate this great privilege—the privilege of having a government which is close to the people. It is also our American way of life. This is not only the right in our individual city but it is also the individual right in our sister towns and cities, and also in our state; and we play a most important part, as individuals and as towns and cities, in making this our American way of life.

In the opening of the Inaugural Address of our first Mayor, the Honorable Charles Sidney Whitehouse, he said as follows: "This occasion is one that marks, like the decades in a human life, an event big with possibilities for material progress and greater happiness to this community. What more fitting occasion or greater incentive can there be for the invocation of divine power and grace and wisdom, than when the people through their duly chosen representatives seek a better way to those methods of government which insure justice, promote prosperity and enlarge happiness and enjoyment." The Inaugural that was given fifty-eight years ago by your first Mayor has not only been an incentive during these years but has also the principles and ideals of good Americanism which must be followed today.

Since 1892, the City of Rochester has come a long way, as far as being progressive, and we are also recognized as one of the fastest growing cities in our state. This is not because of our city's geographical location. During these past fifty-eight years, to my knowledge, there has never been a single instance when we did not have members of our city government who were men of business ability and integrity and who had the welfare and the interest of their community and city at heart.

It would seem only wise at this time to give you some information relative to our school system. When we approved our budget of last year, 42%% of the total budget went for the maintenance of our school system. The total per pupil cost of education in New Hampshire for the last school year amounted to \$229.49. The total per pupil cost in the City of Rochester was \$184.15 which indicates sound business management. The school district is financially responsible to the Council; therefore, it is of vital importance that all Council members be fully informed of our educational program and the necessary facili-

ties to carry out the essential objectives. You are the gentlemen that approve the total budget which includes that of the School Department after it has been presented to you by the Finance Committee, and which they have received from the Finance Committee of the School Board. It is my intention this year to keep you, as Gentlemen of the Council, better informed of the operations of this department which, perhaps, is more important today than ever before in the history of American education. In our country today we are more concerned about education than ever before. Our magazines, radio programs and newspapers tell us of the nation-wide interest in teachers and schools. Perhaps this is because of the fact that the shortage of teachers and lack of adequate facilities have been instrumental in stirring people's interest in education. Today, we are facing an increase in birth rate which is forcing the people to think about education of larger numbers than ever before. In addition to this, parents are also concerned about the kind of education their children are receiving.

"What are the values in American life which citizens must preserve and build upon?" That is the question which has to be faced by every community, parent, principal, teacher, school superintendent and school board member. The men who created the framework of American statecraft were keenly aware of the vital relation of education to the free social order. Having committed themselves to definite social responsibilities, they turned to education as a guarantee that the nation so conceived and so dedicated might endure. They recognized, too, that mere political education was not enough. They sought the deepest and surest possible foundation in the arts, industries, and institutions of civilization. They recognized that good government and economic welfare rest upon widely shared ideals, wisdom, and knowledge. No stone should be left unturned in the effort to give youth a full realization of what democracy means, of the privileges which it affords, of the ways and means through which it is to be most successfully achieved. It is important, too, that loyalty to the democratic ideal be supported by an acute awareness of the factors which threaten it.

The general cost of our public schools has increased considerably during recent years, due to three distinct factors which are well illustrated in Rochester: the increased birth rate over a period of years with ever increasing enrollments, the low purchasing power of the dollar, and the diversified programs that are now essential to prepare youth for its proper place in the complex society of our scientific world. From time to time I will bring to my Finance Committee and you, as Gentlemen of the Council, in executive sessions or at our Council Meetings, the information and facts relative to the schools of Rochester which may not only be of interest to you that you may be more fully informed, but which may be of vital assistance in preparing our budget in these particular times when we must keep in line so as not to force a financial burden upon our taxpayers.

You have built up a Fire Department which is as fine as any in this area or in any town or city comparable to ours in size; and by the adding of new equipment to Gonic and East Ro-

chester, you have extended a service to the entire area of Rochester.

In 1949, we made a special effort to make repairs on our public buildings. The refinishing and painting of the Opera House in East Rochester, together with the new boiler and the fire house doors, was something that has needed to be taken care of for some time. That particular building at the moment is in excellent condition. With the oil heating system now installed, it is my belief that the basement can be cleaned up and used for recreational purposes which would not only be more suitable for the younger group but would also save more or less wear and tear on the main hall. The Gonic Hall has received some changes, the most important being the doors where the fire equipment is kept and the fire escape, but this is only a small portion of the repairs that need to be taken care of, and I know that with the cooperation of my Building Committee that immediate steps can be taken for repairs in this above named building that will give the people of Gonic a hall of which they will be proud and which will more fully meet the requirements that have been needed there for a long while.

I think we are all extremely grieved by the fact that it was necessary that one of our oldest landmarks, the Cocheco Engine House, which has not only been for the housing of that old piece of fire apparatus, but also has been a voting place to serve the citizens of Ward 4 for many, many years, had to be removed. A suitable voting place for Ward 4 must immediately be established. The location must be such that it will meet with the convenience of those citizens in that area of our city and also be of suitable size and construction to meet the requirements needed. A special committee will be appointed, consisting of the Standing Committee on Public Buildings and the three Councilmen from Ward 4, so that they may be enabled to take immediate steps regarding the erection of a polling place for that ward.

The Highway Department is especially well equipped, not only for the general maintenance of your various streets and highways, but also for the removal of snow.

Your Police Department is in a position to protect the citizens of this city and to cooperate with the towns in this area as they have in the past.

It would be my opinion and has been for some time that a special fund should be set up for the setting out of shade trees along our various new streets and to replace some of those we have lost in the various areas of the city.

Summer playgrounds in the various communities are playing a most important part in the life of our younger group. This past year, they were especially well conducted and supervised, and at this time I desire to recognize the cooperation which has been given by the Community Activities Association, who assisted in a financial way by making it possible that we have the use of a director. The summer playgrounds have

gone a little beyond the term that we use of "play," as this group has received instructions which include not only sports and tournaments, but teaching in handcraft and art classes, together with hikes which have included nature study.

It was my privilege to have attended the get-togethers with the parents and the children, at which time they displayed the articles which they had made during the season. These were fine gatherings and I sincerely hope that they may be carried on this year. I also want to recognize the cooperation which was received from the Parent-Teachers Association groups, who provided playground apparatus on some of the areas.

It would seem that a special committee should be appointed to bring in concrete details relative to the proposed swimming pool at Hanson Pines at a very early date.

In my 1948 communication to the Council at the Inaugural Exercises, I brought to the attention, not only of that body but of the citizens of Rocheser, the fact that definite steps should be taken for the improvement of our present water system. During the past year you, as Gentlemen of the Council, have cooperated to your fullest extent in allowing a special water committee to work in conjunction with your Standing Committee on Water Works and Sewers, to employ engineers to bring in plans for the development of this system; to bring in not only a report on the development but also a report as to the ways the same might be financed without imposing a financial burden upon the consumer or the individual taxpayer. This has been studied very carefully, and it is my personal feeling that at any meeting during the latter part of this year if we had brought in a recommendation, you most certainly would have gone along with the plans that were presented to you by your special committee. With your permission, I am going to reappoint a special committee, that they may continue their work, and you may rest assured that no recommendations will be brought in until each individual is absolutely convinced in his own mind and from advice of competent engineers, that the plans that are being presented are for the best interest of the City and that the development will be a permanent project.

I think that we all well realize the importance of water to any community, and we are also definitely sure that this system must be further developed, not only that we may have an adequate supply at all times, but immediate steps should be taken to furnish water to residents of the Old Dover Road and the Milton Road, who so desperately need it.

The consideration that was given by members of the Council is appreciated by these above named committees—the committees that served last year—not only by your moral support but by the fact that you did make it possible that moneys could be used for the building of plans. Financial means were provided for the building of plans and the hiring of engineers. None of this, however, was used as the members of this committee desire to make further study.

Not only you, as Gentlemen of the Council, but I, too,

realize the importance of this development of our water system, that we not only now but in generations to come may have an adequate supply. But we further realize that the financial investment will be great and when this committee makes a recommendation, you may rest assured that they will be positive that the plans presented to you are correct and with also a practical way of financing.

I, personally, take this as an opportunity to congratulate my Council for being far-sighted and conscious of the fact that the improvement of our system is essential. During the latter part of this year, or from late summer, we have read from editorials in newspapers and from articles in our national magazines of the seriousness of water shortage throughout some of the large cities in the eastern part of this country. We definitely do not want a like condition here.

A year ago, I brought to your attention the fact that Rochester was most fortunate in having a Charter that had gone down through the years and under which we were able to operate our municipality in an efficient and practical manner.

In the early part of 1949, in my communication at the March Council Meeting, I recommended the setting up of a Department of Public Works. Sufficient change was made in our Charter, by an act of legislature, to enable us to organize this department. From the action taken by the 1949 Council, of which nearly all of you were members, in the setting up of a Department of Public Works, I sincerely believe that this was one of the most progressive steps taken to operate our various departments in a more efficient and economical manner and to also give greater service to the people of Rochester. By setting up this Department of Public Works, you have set up a plan which emphasizes administrational authority and professional competence. There is no need to be concerned because of the fact that this department isn't fully organized. It is far better to take a reasonable time and to have a department that is properly set up than to immediately jump into a program that we are not sure will operate with the efficiency that we have intended.

The operation of a municipality is strictly a business and as much a business as any industry; and even though our present City barns or sheds, as we may call them, were not in a deplorable condition, it would still be wise and practical to remove them from this most valuable piece of property where they are now located, and use this present City lot as a municipal parking area. There is every reason why this should be done. The plot on the Old Dover Road, which the City now owns, is ideal. Not only because of the fact that it is geographically located in the center of the city, but our equipment could be moved to any location, with the exception of Wakefield Street, without going through Central Square. The establishing of a parking lot in the location which we are now using for the housing of our equipment, would not only be an asset to the various departments but would also be a business proposition as far as Rochester is concerned because it would enable those

who come from this whole area, who for years have used Rochester as a shopping center, to have better parking facilities. For the last few weeks you, as members of the Council, have brought in most cooperative and practical ideas and plans, and I ask and recommend that we take immediate steps in this program.

In the latter part of this year, you wholeheartedly cooperated in organizing the New Hampshire Steel Project. In my opinion this was a very progressive step. The study of local conditions that have been of interest to those considering the location of a steel mill in this area has also proved of potential interest to other industries. The information that this Executive Committee has obtained and which is still being compiled is material that has been needed for many years, and something that will be used from time to time in the future. As I am serving on this Executive Board, I will bring you at intervals, information of the proceedings.

At this time I am going to ask if the various standing committees that will be appointed will immediately take definite steps in preparing their individual budgets for this year. During the past years, we have not presented a budget until we have operated for four or five months. This seems impractical, even though it may not be possible to approve and accept this budget officially at the beginning of the year. It is, however, not wise that we operate unless we, as Gentlemen of the Council, have set sums to work with, and I think you will agree that it is unbusinesslike to operate the various departments without having a definite budget prepared. I also further suggest that included in this budget be a sufficient sum for the revision of the checklists, which would include the addresses of our voters. This is something that has been talked of for some years but no definite steps have been taken.

In December, 1941, I was honored to become a member of your city government and to work with you as a member of the Council. Many of you members have been here during these years, and some were members of the Council before that time. During these last nine years, we have come a long way, even though we have had many obstacles and many problems which it was necessary for you, as Gentlemen of the Council, to decide and which you did determine constructively and efficiently.

We were engaged in the Second World War in this period and set up our civilian defense programs. Many of you served faithfully in these organizations and we all voluntarily assumed in our individual ways the denial of many of the commodities and luxuries to which we were accustomed in our every day life, which might contribute in a small way toward the war effort, that we might not only live in our community but that throughout our country, justice, tolerance and good-will might prevail.

Our boys entered the service and many of them made the supreme sacrifice which makes us all more fully realize the cost of obtaining peace and the four freedoms.

During these past nine years, it has been my privilege to

speak to you and to many groups in this community, and you have heard me express many times how fortunate we were to be residents of this city, and of all the advantages we had here which at this time I will not enumerate at great length, but I want to call your attention for a moment to the fact that we have always worked together, regardless of what our respective stations in life were or what committees we were members of.

In Rochester you have one hundred and twenty-eight organizations. This includes our service clubs and many fraternal organizations which have been outstanding in their contribution to the welfare of our community. You have an active Chamber of Commerce, which not only works for the welfare of everyone but assists in giving information for the convenience of those who travel through this area. They also assist with our Community Chest and Red Cross campaigns.

We are recognized throughout the state as being outstanding by the fact that you have conducted the affairs of your municipality in an efficient manner. You have served your people faithfully without material gain, because you realize that you are contributing a part of your time and your experience toward the welfare of your community. Because of the fact that I am bringing to your attention the conditions that did exist in the past, it is not my desire that you interpret that we should look to the past, as we must always look to the future and use the past only as an experience which will be beneficial to progress which we intend to make in the years that he ahead. With the cooperation which is contributed by your diversified industries who are always most civic-minded, your business establishments, and labor, which is one of the great elements of our society; and with the assistance that you will receive from your citizens, you may look to the future with the fullest confidence that your achievements in the years to come will continue to reflect with credit on the progressive record of your city.

CITY GOVERNMENT

AS ORGANIZED JANUARY 1, 1950

Mayor, C. WESLEY LYONS

COUNCILMEN

Ward One-Frederick J. Grenier, Roland C. White, Willis S. Pease.

Ward Two-Fredrick Maxfield, Ronald C. Taylor, Albert Nelson.

Ward Three—Ernest J. Couture, Charles C. Thompson, James E. Connelly.

Ward Four-Thomas J. Sylvain, Raoul P. Aubin, Donald Sylvain.

Ward Five-Wilfrid T. Roy, Weston H. Palmer, Chester D. Jefferson.

Ward Six-Norman J. Raitt, Vernon E. Hersom, George F. Wilson.

City Clerk-D. Arlene Baker.

City Treasurer-Harry S. Johnson.

City Accountant-J. Stacy Tripp.

City Solicitor-Richard F. Cooper.

Collector of Taxes-Downing W. Osborne.

Commissioner of Public Works-

Marshal-Clifton F. Hildreth.

Assistant Marshal-Vane E. Nickerson.

Patrolmen—Deus Levesque, Willis M. Hayes, Ernest J. Levesque, Nelson S. Hatch, Joseph G. Zuromskis.

Chief Engineer of Fire Department-Ralph G. Seavey.

Deputy Chief Engineers of Fire Department—Frederic Cookson, Joseph E. Woodes, William B. Shaw, John Meader.

Overseer of Poor-Forrest L. Keay.

Printing—Taylor, Connelly, Couture.

Elections and Returns-Connelly, Pease, T. Sylvain.

Legal Affairs-Mayor, Pease, Palmer.

Bills in Their Second Reading and Enrolled Ordinances—Pease, Taylor, Grenier.

Police-Mayor, Palmer, Grenier.

Purchasing-Mayor, Wilson, Jefferson.

Traffic-Hersom, Raitt, Taylor.

IMPORTANT RESOLUTIONS AND ORDERS

Passed by the City Council, 1950

RESOLUTION ON ACCEPTING HAVEN T. NUTTER BOULEVARD

Be it resolved by the Mayor and City Council of the City of Rochester: 1. That the provisions of Chapter XI. Section 9 of the General Ordinances be waived in so far as to ratify and confirm the action of the Highway Committee and accept Haven T. Nutter Boulevard as a public highway.

Passed January 3, 1950.

RESOLUTION ON PAYING FOR EQUIPMENT PURCHASED FROM ANY BALANCES IN 1949 BUDGET

Be it resolved by the Mayor and City Council of the City of Rochester:

WHEREAS, on several occasions the City Council has authorized the purchase of equipment to be financed from the General Equipment Fund and any additional moneys required, on notes of the City; and

WHEREAS, there is now a debit balance on the General Equipment Fund, amounting to \$4,162.41, for such equipment which in accordance with the several votes referred to above should be financed on notes of the City; and

WHEREAS, there will be a balance on the 1949 Budget sufficient to finance this balance of \$4,162.41;

NOW, THEREFORE, Be it resolved by the Mayor and City Council that this balance be financed from any unexpended balances in the 1949 Budget instead of issuing City Notes for the same.

Passed January 3, 1950.

RESOLUTION TO BORROW MONEY IN ANTICIPATION OF TAXES

Be it resolved by the Mayor and City Council of the City of Rochester: That the Finance Committee be authorized to hire in anticipation of taxes a sum not exceeding three hundred and fifty thousand dollars, (\$350,000.00). Said sum to be hired on notes of the City at such time as the best interest of the City requires.

Passed January 4, 1950.

RESOLUTION ON FOUR-DOLLAR BONUS FOR FULL-TIME EMPLOYEES

Be it resolved by the Mayor and City Council of the City of Rochester: That the weekly wage or salary of each full-time employee of the City of Rochester, with the exception of the Commissioner of Public Works, the Chief of the Fire Department and the City Marshal, be and is hereby increased by adding to the sum to which he is entitled under the General Ordinances as amended or existing pay schedules, the amount of four dollars (\$4.00) per week for the current year, 1950.

Passed January 4, 1950.

RESOLUTION TO PAY FOR DRIVING LICENSES FOR TRUCK DRIVERS

Be it resolved by the Mayor and City Council of the City of Rochester: That the cost of driving licenses required by the State for drivers regularly employed to drive City-owned motor vehicles be paid from funds budgeted for the use of the respective departments.

Passed February 7, 1950.

AMENDMENT TO THE ORDINANCES RELATIVE TO TRAFFIC

Be it ordained by the Mayor and City Council of the City of Rochester, as follows:

1. Amend Chapter XIV of the General Ordinances, as amended, Section 3, by striking out the words "excepting Saturday, and on Saturdays between eight o'clock A. M. and nine o'clock P. M." so that that section will read as follows:

"Section 3. No person between the hours of eight o'clock A. M. and six o'clock P. M. on all week-days shall be allowed to park or cause to stand a motor vehicle for more than one hour, or proportionate part thereof, on North Main Street from Bridge Street to Central Square; on the whole of Central Square; on both sides of South Main Street from Central Square to Knight Court; and on Hanson Street from Central Square to Central Avenue; nor shall any person, between the said hours on the said days of the week, be allowed to park or cause to stand a motor vehicle for more than two hours, or proportionate part thereof, on Hanson Street from Central Avenue easterly to the end of said Hanson Street; on those areas so designated on both sides of Portland Street at the westerly end thereof; on the northwesterly side of Bridge Street from North Main Street to the Bridge; on North Main Street from Bridge Street to the bridge over the Cocheco River; on both sides of Wakefield Street from Autumn Street to the entrance to the Central Fire Station. Provided, however, this section shall not apply to operators of licensed taxis when in locations allotted to them as a taxi stand, nor to any buses when in locations allotted to them

by vote of the City Council, nor to any motor vehicle of the Police Department when in the space allotted to it on the west-erly side of Parson Main Monument."

2. Amend Chapter XIV of the General Ordinances, as amended, by striking out and eliminating Section 13a.

Passed February 7, 1950.

RESOLUTION TO APPROPRIATE \$25,000.00 FOR MUNICIPAL GARAGE

Be it resolved by the Mayor and City Council of the City of Rochester:

- 1. That the sum of twenty-five thousand (\$25,000.00) dollars be and is hereby appropriated for the purpose of constructing a municipal garage on land owned by the City on the westerly side of the Old Dover Road in Rochester.
- That the Finance Committee be and is hereby authorized to borrow such sum or sums as by it is deemed necessary for the construction of the said municipal garage in accord with the aforesaid appropriation upon such terms as by it is deemed best for the City.
- That the Special Committee for Municipal Garage and parking lot be and is hereby authorized to proceed to obtain plans and specifications and to solicit bids for the construction of the municipal garage, said bids to be accepted or rejected by vote of the council.
 Passed March 7, 1950.

RESOLUTION NOT TO CHARGE BUILDING PERMIT FEE FOR NEW NURSES' HOME AT THE FRISBIE MEMORIAL HOSPITAL

Be it resolved by the Mayor and City Council of the City of Rochester: That the charge on a building permit for the new Nurses' Home at the Frisbie Memorial Hospital be waived.

Passed April 4, 1950.

AMENDMENT TO THE ORDINANCES RELATIVE TO FIRE DEPARTMENT SALARY OF PERMANENT CAPTAIN

Be it ordained by the Mayor and City Council, as follows:

1. Amend General Ordinances, Chapter VIII, by inserting after Section 6 and before Section 7, the following new section:

"Section 6a. In the absence of the Chief and the Deputy Chiefs, the Permanent Captain shall perform all the duties and have all the powers of the Chief."

2. Amend General Ordinances, Chapter XXIII, Section 9, by inserting after paragraph a, sub-paragraph 1, the following new sub-paragraph:

per week. He shall be granted one-week vacation each year with pay."

Passed April 4, 1950.

AMENDMENT TO THE ORDINANCES RELATIVE TO POLICE DEPARTMENT, SALARY OF SERGEANT

Be it ordained by the Mayor and City Council of the City of Rochester:

- 1. Amend the General Ordinances, Chapter V, by inserting after Section 3 and before Section 4 the following new section:
- "Section 3a. The Sergeant during the absence from duty or disability of the Assistant Marshal shall perform all the duties of the Assistant Marshal.
- Amend the General Ordinances, Chapter XXIII, as amended, by inserting in Section 8 after paragraph d and before paragraph e the following new paragraph:

"Paragraph d-l. Sergeant, forty-six dollars and ninety-seven cents (\$46.97) per week. He shall be granted one-week vacation each year with pay.'

Passed April 4, 1950.

RESOLUTION FOR APPROPRIATION FOR WATER MAIN EXTENSION TO CITY GARAGE

Be it resolved by the Mayor and City Council of the City of Rochester: That a sum not to exceed \$5,566.17 be appropriated for a six-inch water main extension from Hancock Street to the site of the new City Garage on the Old Dover Road, including three hydrants, the above sum to be issued on Water Notes.

Passed May 2, 1950.

RESOLUTION THAT A. J. PARENT PAY ONE-HALF THE COST OF WATER AND SEWER INSTALLATION UP TO \$15,000.00

Be it resolved by the Mayor and City Council of the City of Rochester: That upon receipt by the Honorable Mayor of the written guarantee of the Amoskeag Savings Bank of Manchester, New Hampshire, that Albert J. Parent shall pay one-half of the costs, but not exceeding \$15,000.00, within fifteen days after the completion of the installation of water and sewer mains upon Brock Street, Duquette Street, Kendall Street, Lyons Street and Chasse Street, the Public Works Department is hereby authorized and directed to proceed to install said water mains and sewers in the aforementioned streets.

Be it further resolved that upon the receipt of the aforementioned guarantee, and upon the street being brought to grade in accord with the ordinance, the aforementioned streets be then and there laid out and accepted as public highways.

Passed May 2, 1950.

RESOLUTION ON ACCIDENT PREVENTION WEEK BEGINNING ON MAY 7, 1950

Be it resolved by the Mayor and City Council of the City of Rochester:

WHEREAS, many of our people have suffered extensive damage to their persons and property and some have even lost their lives by reason of the negligent and careless operation of motor vehicles upon our highways; and

WHEREAS, we know that by a more careful operation of our motor vehicles and a more prudent and reasonable use of our highways, by both drivers and pedestrians, all of our sufferings may be eliminated—

NOW, THEREFORE, I, C. Wesley Lyons, designate the week beginning May 7, 1950, as Accident Prevention Week and do further enjoin each of our citizens to be especially cognizant of the ways and means of avoiding and preventing highway accidents, and, in line with that purpose, recommend to each of our people his attendance at the Highway Safety Conference to be held at the City Hall in Rochester on May 10 at 7:45 P. M.

Dated at Rochester this second day of May, 1950. Passed May 2, 1950.

RESOLUTION TO REFUND BUILDING PERMIT FEE TO VICTORY CLUB

Be it resolved by the Mayor and City Council of the City of Rochester: That the building fee which has been paid to the City Clerk, under the rules and regulations of our Building Code, for the repairing and rebuilding of the Felker Homestead on North Main Street for the Victory Club, be refunded.

Passed May 2, 1950.

RESOLUTION FOR APPROPRIATION TO DEFRAY THE EXPENSES AND AMOUNT TO BE RAISED BY TAXATION

Be it resolved by the Mayor and City Council of the City of Rochester, as follows: The sum of \$794,443.00 be and is hereby appropriated to defray the expenses of the City of Rochester for the ensuing year in accord with the Budget herein before adopted, and

That the sum of \$664,443.00 plus such overlay as may be necessary is hereby ordered and directed to be raised by taxation, on the polls and rateable estates within said City.

Passed May 9, 1950.

RESOLUTION FOR RULES AND REGULATIONS ON COLLECTION OF RUBBISH

Be it resolved by the Mayor and City Council, as follows:

WHEREAS, for the past two years the City-owned equipment and employees have been collecting rubbish in and about the City, now under the control of the Department of Public Works; and

WHEREAS, there have been no rules, requirements or regulations, for the failure to comply with which the City may refuse to collect garbage, rubbish and other refuse matter; and

WHEREAS, not only does the City have certain powers of regulation for the purpose of promoting better public health, but under Chapter X-1 of the General Ordinances, Section 8, a person is specifically prohibited from dumping rubbish upon any highway, street or other public place in the City of Rochester.

NOW, THEREFORE, the following regulations be and are hereby adopted for the control of the collection of rubbish, refuse and other waste material:

- 1. On the day appointed for each zone or area, due notice which shall be given from time to time in local newspapers and by other methods of public notice, collection shall be made of garbage, refuse and other waste material placed on the side of the highway in front of the residences within each of the said zones:
- 2. The garbage, refuse and other waste material shall not be construed to include garden waste, brush, leaves or building materials; a reasonable amount of lawn rakings and lawn clippings may be collected; ashes, both coal and wood, shall be considered as waste material;
- 3. Within the zones or areas, the limits of which may be altered from time to time, collections shall be made only from in front of residences, the Gafney Home, the St. Charles Orphanage, and the Frisbie Memorial Hospital situate therein. No collections shall be made from hotels, restaurants, stores or wholesale houses;
- 4. No collections shall be made on legal holidays or days of extremely bad weather, but on the day following said holiday or extremely bad weather, should the same not come on Sunday, the collection shall be made that would have taken place; and all other collections shall follow in rotation until the same have been completed;
- 5. Garbage, refuse and other waste material shall be placed for collection at the curb on the side of the street in solid containers, said containers not to hold more than two and one-half bushels nor to weigh more than 75 pounds with contents. All containers holding waste papers and garbage, refuse and other waste materials shall be securely covered. The deposit of garbage, refuse and other waste material at the side of the road in paper bags and in other than solid containers is specifi-

cally prohibited, and City employees are forbidden to remove any garbage, rubbish, refuse or other waste material unless placed in solid containers as above described;

- 6. The several residences within the zone or collection area shall place at the side of the highway adjoining the residences any garbage, refuse or other waste material to be collected in the manner above specified, and on the days determined for their respective areas at or before 7 o'clock in the morning and shall not place or set upon the highway any of the aforesaid materials when and after collections have been made over and along said street:
- 7. No person shall deposit garbage, refuse or other waste material upon any highway, sidewalk or other public place except in the manner herein provided. Any violation of these rules will be contrary to the provisions of Chapter 11, Section 8, of the General Ordinances of the City of Rochester, which provides for a fine not exceeding \$20.00 for each and every offense.

Passed June 6, 1950.

RESOLUTION ON TIME POLLS ARE OPEN SEPTEMBER 12. PRIMARY

Be it resolved by the Mayor and City Council of the City of Rochester: That on Tuesday, September 12, 1950, at the Primary, the polling places in all six wards of the City of Rochester shall be open at 9 o'clock in the forenoon and shall close at 6 o'clock in the evening, Daylight Saving Time.

Passed July 5, 1950.

RESOLUTION ON RESIGNATION OF CITY SOLICITOR RICHARD F. COOPER

Be it resolved by the Mayor and City Council of the City of Rochester: This Council desires to go on record as accepting the resignation of Richard F. Cooper with deep regret.

At this time this body wishes to express their appreciation to him for his efficient service rendered, for his fine cooperation and for his friendly counsel at all times.

We extend to him our best wishes for his success and happiness in his new position as Associate Justice of the Rochester Municipal Court.

Passed July 5, 1950.

RESOLUTION ON AGREEMENT FOR WATER EXTENSION ON WHITEHALL ROAD

Be it resolved by the Mayor and City Council, as follows:

1. That a six-inch water main together with necessary hydrant facilities be installed on Whitehall Road, easterly from

Sunset Drive, 1,848 feet, more or less, at a cost estimated to be \$4.869.34.

- 2. That a sum not exceeding \$5,000.00 be and is hereby appropriated for the purpose of the said water main extension on Whitehall Road, said sum to be raised by the Finance Committee upon such terms as appear most beneficial to the City.
- 3. The aforesaid extension and appropriation is made contingent upon the execution of a bond by Ralph Montgomery, Franklin T. Lamb and Henry Hackett, guaranteeing to the City of Rochester a return upon its investment at the rate of 3% per annum, they to be given credit for payments for water used by them and intervening users each year.

Passed July 24, 1950.

AMENDMENT TO THE ORDINANCES—STOP SIGN ON CLEVELAND STREET

Be it ordained by the Mayor and City Council of the City of Rochester: That Chapter XIV, Section 10, of the General Ordinances be amended by adding the following paragraph:

(60) On Cleveland Street before entering Maple Street from said Cleveland Street.
Passed August 1, 1950.

RESOLUTION TO ACCEPT CITY SHARE OF REIMBURSEMENT FOR TIMBER TAX

Be it resolved by the Mayor and City Council of the City of Rochester: That the City of Rochester be and hereby is authorized to accept the share of reimbursement under Chapter 295, of the Laws of 1949, entitled "An Act Relating to Forest Conservation and Taxes," to be determined by the New Hampshire State Tax Commission and certified to the State Treasurer for payment to the City of Rochester.

Passed August 22, 1950.

AMENDMENT TO THE SALARY OF CLERK OF MUNICIPAL COURT

Be it ordained by the Mayor and City Council of the City of Rochester: That Chapter XXIII, Section 8, Paragraph (b) be amended by striking out the whole thereof and in its stead inserting the following Paragraph (b):

"b. Clerk of the Municipal Court, \$780.00, payable quarterly."

Passed September 5, 1950.

RESOLUTION TO RESCIND PREVIOUS 1950 RESOLUTION INCURRING INDEBTEDNESS FOR WATER DEPARTMENT APPROPRIATIONS

Be it resolved by the Mayor and City Council of the City of Rochester: That the following 1950 resolutions for incurring indebtedness for Water Department Appropriations for the year 1950 be rescinded:

1950			
April	4	New England Brick Co.,	\$6,000.00

August	1	Eastern Avenue,	307.08
August	1	Kelliher Estate,	3,000.00
			\$25,672.03

Passed September 13, 1950.

RESOLUTION TO RAISE MONEY FOR WATER DEPARTMENT

Be it resolved by the Mayor and City Council of the City of Rochester: That a sum not to exceed \$26,000.00 be appropriated for the Water Department for 1950 Water Department's Appropriations.

Passed September 13, 1950.

RESOLUTION RELATIVE TO BARKER COURT

Be it resolved by the Mayor and City Council of the City of Rochester: THAT WHEREAS, Barker's Court is at present a dead-end street; and

WHEREAS, Klein and Abuza are the owners of the parcel of land approximately sixty-eight (68) feet long and fifteen (15) feet wide between the end of Barker's Court and the City Parking Lot; and

WHEREAS, melting snow from the City Parking Lot presently drains upon other lands of said Klein and Abuza; and

WHEREAS, said Klein and Abuza are desirous of having some arrangement made for drainage of surface water from their aforesaid property; and

WHEREAS, said Klein and Abuza are willing to transfer to the City of Rochester the aforesaid parcel of land, which will make for a third exit or entrance to the City Parking Lot via Barker's Court;

NOW THEREFORE, BE IT RESOLVED, that the Mayor appoint a special committee consisting of three (3) members, one each from the following committees: Public Works, Police and Fire; said committee to have the power to act in order that work may proceed without delay; and BE IT FURTHER RESOLVED that a sum not exceeding Six Hundred (600) Dollars be and is hereby appropriated, the same to be charged to revenue surplus, to cover expenses of installing such drainage as may be reasonable and proper.

Passed October 3, 1950.

Passed October 3, 1950.

RESOLUTION ON SERVICE OF MR. GEORGE D. DAME UPON HIS RETIREMENT

Be it resolved by the Mayor and City Council of the City of Rochester:

WHEREAS George D. Dame has rendered to the City of Rochester more than thirty-eight years of devoted, faithful, conscientious and unselfish service to the City of Rochester; and

WHEREAS George D. Dame has contributed many years of his time and energies to the growth and development of the Water Works and Sewers Department of the City of Rochester; and

WHEREAS George D. Dame has now retired from his duties as Superintendent of the Water Works and Sewers Department of the City of Rochester.

NOW THEREFORE be it resolved that George D. Dame be and hereby is cited by the unanimous vote of the City Council of the City of Rochester for his untiring efforts and contributions to the progress of the City of Rochester; and

Be it further resolved that a copy of this resolution be presented to the said George D. Dame as a small token of our gratitude in testimony of the City of Rochester.

Passed October 3, 1950.

RESOLUTION ON STRAFFORD PARK DEVELOPMENT TO HAVE STREETS FINISHED

Be it resolved by the Mayor and City Council of the City of Rochester: That the City Council authorize the Finance Committee to raise on notes of the City the sum of Four Thousand Dollars (\$4,000.00);

That the Public Works Department be and hereby is authorized to surface that portion of the following streets that lie within the Strafford Park Development, so-called, at a cost not to exceed \$4,000.00-Brock Street, Duquette Street, Kendall Street, Lyons Street and Chasse Street;

That there is hereby appropriated from the proceeds of the

aforementioned loan the sum of \$4,000.00 for the surfacing of the aforementioned streets. That this resolution be made conditional upon the Finance Committee being able to borrow raised money on notes of at least of no interest for the first year and 2% thereafter.

Passed October 11, 1950.

RESOLUTION ON TIME POLLS WILL BE OPEN AT THE NOVEMBER 7 AND DECEMBER 5 ELECTIONS

Be it resolved by the Mayor and City Council of the City of Rochester: That on Tuesday, November 7, 1950, at the Biennial Election and on Tuesday, December 5, 1950, at the City Election, the polling places in all six wards of the City of Rochester shall be open at 9 o'clock in the forenoon and shall close at 6 o'clock in the evening, Eastern Standard Time.

Passed October 11, 1950.

RESOLUTION TO LEASE CITY LAND ON RAILROAD AVENUE IN GONIC

Be it resolved by the Mayor and City Council of the City of Rochester: That the City of Rochester, (hereinafter referred to as "Lessor") does hereby lease, demise and let unto the State of New Hampshire (hereinafter referred to as "Lessee"), a certain tract or parcel of land situate upon the Northerly side of Railroad Avenue, so-called, in that part of said Rochester known as Gonic and bounded and described as follows:

Beginning for the same at a point in the Northerly line of Railroad Avenue, said point being at the Southeasterly corner of land formerly of A. Roscoe Tuttle; and running thence N. 1° 30′ E. about three hundred (300′) feet to a brass plug in a ledge; thence turning at right angles and running S. 88° 30′ E. one hundred and ten (110′) to a point already marked or to be marked by a concrete bound; thence turning at right angles and running S. 1° 30′ W. about 301.3 feet to a point already marked or to be marked by a concrete bound; thence running with the Northerly line of Railroad Avenue about one hundred and ten (110′) feet, more or less, to the point of beginning. The above described parcel being shown on a Plan of land in Rochester, New Hampshire, to be used for garage and stock-yard purposes dated October, 1947. The first course given in the above described parcel which is shown as being N. 1° 30′ E. is the same course as is shown as being S. 1° 45′ W. on a plan of lots of the Estate of A. Roscoe Tuttle made by Grant L. Davis and dated December 23, 1947.

TO HOLD for the term of one year from the seventeenth day of October, nineteen hundred and fifty yielding and paying therefore the annual rent of one dollar per annum.

Provided, however, as follows:

1. That the Lessee shall erect and maintain a chain link

fence with a minimum height of seventy-two (72") inches enclosing the above described parcel of land with the exception of that portion of the Westerly sideline of said parcel abutting other land of the Lessee said land enclosed or to be enclosed by a similar fence of the above description; and

- 2. That the Lessee shall erect and maintain upon the above described parcel of land one gate at the Northerly side and one gate at the Southerly side; both said gates to have a minimum width of twelve (12') feet; and
- 3. That the Lessor shall have the right to cross and recross the above described parcel of land to and from other lands of the Lessor abutting the said parcel upon the Northerly side thereof; and
- 4. That this lease shall be renewable from year to year upon payment of the annual rent of one dollar by the Lessee to the Lessor so long as the above described parcel of land is used by the Lessee for the purposes of the Department of Public Works and Highways of the Lessee; and
- 5. That in the event that the Lessee shall at any time discontinue utilizing the above described parcel of land for the purposes of the Department of Public Works and Highways of the Lessee then and in such event the above described parcel of land with any and all buildings, fences or improvements erected or to be erected thereon by the Lessee shall revert to the Lessor; and
- 6. That the Lessee hereby covenants and agrees with the Lessor to indemnify, save and hold harmless the Lessor from and against any and all claims, suits, actions, damages and/or causes of action arising, during the term of this lease or any renewal thereof, for any personal injury, loss of life and/or damage to property sustained in or about the demised premises, or the buildings and improvements thereon, or the appurtenances thereto, or upon the adjacent sidewalks or streets, and from and against all costs, counsel fees, expenses and liabilities incurred in and about any such claims, the investigation thereof or the defense of any action or proceeding brought thereon, and from and against any orders, judgments and/or decrees that may be entered therein.

Passed October 11, 1950.

RESOLUTION OF SYMPATHY FOR BASIL F. BLAKE

"Be it resolved by the Mayor and City Council of the City of Rochester:

WHEREAS the late Basil F. Blake was for many years vitally interested in the civic and public affairs of the City, County and State; and

WHEREAS the late Basil F. Blake was a true Christian gentleman; and

WHEREAS the late Basil F. Blake will long be remembered by his many friends as a true newspaper man

NOW THEREFORE be it resolved by the Mayor and City Council of the City of Rochester that this resolution of sympathy be spread upon the records of the City of Rochester and a copy of this resolution be tendered his family as an expression of our sympathy in their bereavement."

Passed November 8, 1950.

RESOLUTION TO ACCEPT THE GEORGE A. PRAY AND HATTIE A. PRAY TRUST FUND

Be it resolved by the Mayor and City Council of the City of Rochester:

WHEREAS George A. Pray, deceased, testate, late of Rochester in the County of Strafford and State of New Hampshire, did execute a certain Last Will and Testament on the 28th day of January, 1937, under the terms of Clause Third of said Will the said George A. Pray did bequeath to the City of Rochester the balance of a trust fund to the trustees of trust funds for the City of Rochester to be held by them as a fund to be conducted in a manner similar to the Adams Fund now held by such trustees, and the income therefrom to be known as the George A. Pray and Hattie A. Pray Fund to be annually divided among needy widows and maiden ladies of fifty years of age or over, following the decease of Charles E. Pray, Edwin Pray, and Emma F. Varney; and

WHEREAS said Last Will and Testament has been duly admitted to probate in the Probate Court in and for Strafford County in the State of New Hampshire, and situate in Dover; and

WHEREAS the said Charles E. Pray, Edwin Pray, and Emma F. Varney have deceased

NOW THEREFORE the Mayor and City Council hereby authorize and direct the trustees of trust funds for the City of Rochester to accept said George A. Pray and Hattie A. Pray Trust Fund with gratitude to be administered according to the terms of said Last Will and Testament.

Passed November 8, 1950.

AMENDMENT FOR A FIRE CONTROL ORDINANCE

Be it ordained by the Mayor and City Council of the City of Rochester, as follows:

Section 1. Amend the general ordinances of the City of Rochester, revised in 1944 and subsequently changed and amended, by adding the following new chapter to be known as "Chapter XXX Fire Control Ordinance" as follows:

ARTICLE I. ADOPTION OF RULES AND REGULATIONS OF THE NEW HAMPSHIRE BOARD OF FIRE CONTROL COVERING THE INSTALLATION OF POWER OIL BURNERS AND OIL BURNER EQUIPMENT.

Pursuant to the Sub-Section 1, Section 12, of Chapter 175A of the Revised Laws, as inserted by Chapter 251, Public Acts of the Legislature of 1947, as amended by Chapter 141, Public Acts of the Legislature of 1949, of the New Hampshire Board of Fire Control covering the installation of Power Oil Burners and Oil Burner Equipment duly approved and adopted by the New Hampshire Board of Fire Control in accordance with the provisions of Chapter 251, Public Acts of the Legislature of 1947, as amended, be and hereby are adopted by the City of Rochester by specific reference thereto.

ARTICLE II. ADOPTION OF RULES AND REGULATIONS OF THE NEW HAMPSHIRE BOARD OF FIRE CONTROL COVERING THE STORAGE AND TRANSPORTATION OF FLAMMABLE LIQUIDS OTHER THAN LIQUEFIED PETROLEUM GAS.

Pursuant to Sub-Section 1, Section 12, of Chapter 175A of the Revised Laws, as inserted by Chapter 251, Public Acts of the Legislature of 1947, as amended by Chapter 141, Public Acts of the Legislature of 1949, the Rules and Regulations of the New Hampshire Board of Fire Control covering the Storage and Transportation of Flammable Liquids other than Liquefied Petroleum Gas duly approved and adopted by the New Hampshire Board of Fire Control in accordance with the provisions of Chapter 251, Public Acts of the Legislature of 1947, as amended, be and hereby are adopted by the City of Rochester by specific reference thereto.

ARTICLE III—NOTICE OF AVAILABILITY OF RULES AND REGULATIONS

The Rules and Regulations referred to in Articles I and II above are available at the Fire Department of the City of Rochester.

ARTICLE IV-ENFORCEMENT OFFICER

The words "Officer" and/or "Local Authorities" wherever in any of the Rules and Regulations of the New Hampshire Board of Fire Control shall be deemed to refer to the Chief of the Rochester Fire Department.

ARTICLE V-ADOPTION OF ARTICLES I TO IV

Articles I to IV inclusive of this amendment shall take effect two weeks after the first of two successive weekly publications in one or more local newspapers.

ARTICLE VI—CONTROL OF OUTDOOR FIRES

(a) Authority. Article VI is based upon sub-section XV of Section 13 of Chapter 66 of the Revised Laws, as amended.

- Outdoor Fires, Kindling, Lighting, or otherwise start-No person shall kindle, light, or otherwise start an outdoor fire in the City of Rochester for any purpose whatsoever without first having obtained a written permit without cost from the Chief of the Rochester Fire Department.
- Permits. All permits shall be in writing and in such form as the Chief of the Rochester Fire Department shall prescribe.
- (d) Penalty. Any person who shall violate any of the provisions of this Article VI shall be fined not more than twenty dollars (\$20.00) for each offense of this Article VI.
- Adoption. This Article VI shall become effective after posting in at least five public places in the City of Rochester after approval by a majority vote of the City Council and two weeks after the first of two successive weekly publications in one or more local newspapers. Passed November 8, 1950.

RESOLUTION TO TRANSFER BALANCES IF FOUND NECESSARY IN CLOSING THE ACCOUNTS

Be it resolved by the Mayor and City Council of the City of Rochester: That if found necessary in closing the accounts of the year to transfer from a department where there is a balance to a department where there is a deficit the Committee on Finance be authorized to make such a transfer.

Passed December 7, 1950.

RESOLUTION TO APPROPRIATE A SUM FOR DEVEL-OPMENT OF A MUNICIPAL PARKING AREA

Be it resolved by the Mayor and City Council of the City of Rochester. That a sum not to exceed seven thousand dollars (\$7,000.00) be and hereby is appropriated from the Parking Meter Revenue to acquire, construct, improve, maintain and manage Public Parking Areas. Passed December 7, 1950.

RESOLUTION THAT PUBLIC BUILDINGS BE USED FOR MEDICAL AND HOSPITAL USE IF NECESSARY TO CARE FOR THE INJURED

Be it resolved by the Mayor and City Council of the City of Rochester: That should occasion arise the Public Buildings of the City be given use of for medical use and hospital for care of any injured.

Passed December 7, 1950.

FINANCIAL STATEMENT

To the Honorable Mayor and City Council, Rochester, N. H.: Gentlemen:

I present herewith a report of the financial condition of the City of Rochester as of the close of business December 31, 1950.

This report is presented in the same general form as in past years in order to present a basis for comparisons.

The Gross Funded Debt shows an increase of \$8,164.00. This increase is accounted for as follows:

New Notes Issued:

New Notes Issued:		
Water Notes Municipal Garage Notes Strafford Park Note Real Estate Notes Equipment Notes	\$26,000.00 15,000.00 4,000.00 5,500.00 5,064.00	\$55,564.00
Notes Paid:		
Water Notes Sewer Notes Equipment Notes Surface Drain Notes Highway Notes City Hall Notes	\$13,820.00 8,200.00 12,380.00 1,000.00 9,500.00 2,500.00	
-		47,400.00
Increase		\$8,164.00
The Total Funded Debt as of January divided as follows:	1, 1951, is	\$339,987.12,
Water Debt (Payable from Water Reven	ue)	\$116,230.00
Municipal Debt: Payable from Reserve for Retiremer Payable from future Tax Levies	nt of Debt	$\begin{array}{c} 7,757.12 \\ 216,000.00 \end{array}$
		\$339,987.12
The Budget Operations for the year cess of charges of \$26,692.50 accounted fo		
Excess of Appropriations over Charges		\$16,103.87 10,588.63

\$26,692.50

I believe the accompanying exhibits and supporting schedules reflect fairly the financial condition of the City on December 31, 1950, and the results of the various budget operations and special accounts for the year.

Respectfully submitted,

J. STACY TRIPP, City Accountant.

REPORT OF THE DEPARTMENT OF PUBLIC WORKS

The Department of Public Works as organized under the General Ordinances and Amendments adopted in January, 1950, is charged with the responsibility for the construction and maintenance of streets, water supply and distribution system. bridges, sidewalks, storm and sanitary sewers; maintenance of public parks and lands and the collection and disposal of ashes and rubbish.

Employees: Summer 55; Winter 48.

EXPENDITURES

Charged to Highway Budget Rubbish Collection Budget Sanitary Sewer Budget Shade Trees, Parks and Commons (Including Playground Supervision and Expenses	\$92,858.26 12,537.13 3,172.06 7,544.58
Total Budget Expenses Per Capita Budget Expense Cost of above per Tax Dollar	\$8.20

To the Committee on Public Works:

NEW GARAGE OCCUPIED

One of the major accomplishments of the department as a whole during 1950 was the work done at the new garage and in tearing down the old garage and the partial grading of the new Municipal Parking Lot. Men of the Highway Division did the clearing and grading at the site of the new building, filled the foundation forms and built the cement floor of the building according to the terms of the contract with the builder. A sixinch water main extension was laid to the garage and water and sewer services connected by the Water and Sewer Divisions.

Some delay in the laying of the floor was caused by the difficulty in getting cement in the latter part of the year but the floor was completed and the building occupied shortly after mid-December. It is interesting to note that the amount of cement in the floor of the building alone is equivalent to nearly seven-tenths of a mile of five-foot sidewalk.

All members of the department are greatly pleased with the improvement in facilities at the new building and for the first time in the history of the department all equipment can be housed.

STRAFFORD PARK DEVELOPMENT

Another of the major activities of the department and of the Water and Sewer Divisions in particular, was the installation of water and sewer mains and services in the Strafford Park development off Washington Street. In this project alone sixty houses were connected to water and sewer mains and more than 3,900 feet of sewer mains and 3,000 feet of water mains were laid.

The underground pumping station that was built in connection with this project will enable home-owners in the upper Brock Street section to obtain sewer service at a much lower cost to the City.

WATER MAINS INSTALLED

In addition to the above mains, extensions of water mains were made on fifteen other streets and sewer extensions on eight streets. A total of over two miles of water mains and over one mile of sewer mains was constructed during the year. Eighteen new hydrants were installed. One hundred twenty-four new water services were laid and twenty-seven services were relaid. Nearly two miles of service pipe was used on new and relaid water services and over one and four-tenths miles of sewer service pipe were installed on one hundred twenty-seven new services.

Routine tests of the water were made monthly or oftener during the year by the State Department of Health and all reports indicated that the same good quality of water was being furnished the users in the city as in previous years.

The usual maintenance activities of the Water and Sewer Divisions were carried on during the year, including repairing leaks in water mains and services, repairing and replacing defective meters, cutting and removing brush around the ponds, Reservoir and Berry Brook, cleaning sewer services and mains and many other minor tasks.

RAILROAD AVENUE COMPLETED

In the Highway Division the work of excavating and resurfacing Railroad Avenue, Gonic, was completed from Maple Street to the railroad crossing. Eleven other roads on the outskirts of the City were regravelled either wholly or in part. Over 13,500 cubic yards of gravel were hauled and spread on the roads and streets during the year.

TARRING

Approximately six thousand feet of streets in the city proper, East Rochester and Gonic were given a light coat of gravel, graded and tarred for the first time. The streets in the Strafford Park development were prepared and given their first coat of tar under contract, but the City forces applied the second coat, using some of the contractor's equipment.

In all, over 80,000 gallons of tar and 2,380 cubic yards of sand were used in surface treatment of seventy-eight of the streets and roads of the City.

Due in part to the cement shortage and, also, the large amount of work performed outside the regular duties of the department, the sidewalk construction program was considerably curtailed. By vote of the City Council, sections of sidewalk were built on Maple Street and Hanson Street.

All catch basins were cleaned and some street cleaning was done nearly every day from the first of April until the end of the year.

BRUSH KILLER USED

In 1949 a short section of roadside was treated with brush killer to see if this method could be used successfully in keeping roadside brush under control. It was felt that the 1949 demonstration was encouraging and during the past summer about twenty miles of roadside were sprayed with the recommended chemicals. This can be done at about one-tenth the cost of cutting and should result in improved roadside conditions over a period of a few years. Bushes too large to be sprayed successfully were cut at several locations in the early part of the year.

In spite of the fact that a mild winter was experienced, there were eight storms that had to be plowed and the snow removed. From the first week in January to the last week in March at least some sanding of streets or sidewalks was done

nearly every day.

Throughout the year the other usual minor duties of the Highway Division were carried on, including patching streets, repairing bridges and culverts, trimming shade trees, etc.

REPORT OF CITY MARSHAL

To the Honorable Mayor and City Council:

Gentlemen: I have the honor to submit for your consideration a summary of the activities of the Rochester Police Department for the year ending December the 31st, 1950, including financial transactions, revenue from various sources, as well as a summary of the routine activities of the department.

On the first of March, 1950, I took over the office of City Marshal. I at once requested that a sergeantcy be created to provide supervision of the force over the entire twenty-four hours of the day, and it was their pleasure to annoint Ernest E. Levesque as sergeant, and he has done well in his duties as sergeant. It was also granted me to employ a civilian clerk to handle meter receipts and other routine office work and Miss Della Yeaton has fulfilled the duties very capably.

In June two new cruisers were purchased through exchange of the old cruisers which the department had when I arrived, and these cruisers have made it possible to extend patrol particularly over the night time to give better coverage to East Rochester, Gonic, North Rochester, Meaderboro, as well as regular traffic patrols from time to time on our through streets.

With the assistance of the New England Telephone Company a survey was made of the cost of the telephone system at the Station and following the survey the old system was discontinued as of August the first, 1950, and a much simplified system inaugurated. The old direct control box and switchboard were discontinued and have reduced the cost of phones by more than half per month, and the new system was placed in operation on August the first, 1950.

The traffic control system of lights has been a troublesome one, and one light was moved from its old location on South Main Street to a point near the Elks Home to facilitate the movement of traffic out of Liberty Street, and other changes have been tried in the Square in an effort to remedy the situation. None of these have been wholly satisfactory, however, and I would recommend that the entire traffic light situation be resurveyed by competent authorities.

After considerable thought I offered for the consideration of the Council a plan to establish a through way, and I sincerely hope that this will be considered thoroughly, because I feel that if possible this would tend to eliminate a great deal of our traffic troubles in the Square at the convergence of five routes as is the case at the present time. I also feel that this would have a favorable effect upon the through traffic which now travels Charles and Liberty Streets on their way through town.

In closing I would like to thank the Mayor and members of

the City Council, as well as the various committees for their wholehearted and sincere cooperation with me at all times, and also to extend my thanks to the various other departments, the State and County officials, for their cooperation and assistance. It is also my wish to thank the other members of this Department for their loyalty and support during the year 1950.

REPORT OF CITY SOLICITOR

To the Mayor and City Council of the City of Rochester:

I herewith respectfully submit to you my first report as City Solicitor for the fiscal year 1950.

The City has retained the law firm of Cooper, Hall & Cooper as special counsel to prosecute the suit of the City against the Boston & Maine Railroad for damages and expenses incurred in the fighting of the fire of October, 1947. This suit is still pending before the Superior Court of the State of New Hampshire.

All other legal questions which have arisen during the year have been disposed of without litigation.

I would express to you my gratitude for the fine cooperation given by Marshal Clifton F. Hildreth, Judge Leonard C. Hardwick and the Clerk of Court, as well as Mayor Lyons, the City Accountant, the City Clerk, and all other City officials during my first tenure of office as City Solicitor.

Respectfully submitted,

PAUL B. URION, City Solicitor.

REPORT OF CLERK OF MUNICIPAL COURT

To the Honorable Mayor and City Council, Rochester, N. H.:

I herewith submit a statement of the condition of the finances of the Rochester Municipal Court as of December 31, 1950.

This is to certify that I have examined the accounts of Victor Cardosi, Clerk of the Municipal Court of Rochester, for the year ending December 31, 1950, and I find them as set forth in the above statement with all payments to the Treasurer and otherwise properly receipted for, together with a cash balance on hand of \$120.29, and checking account balance of \$78.89.

LEONARD C. HARDWICK, Justice.

REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Honorable Mayor and City Council, Rochester, N. H.:

Gentlemen: I herewith submit my report for the year ending December 31, 1950.

I have inspected the scales at stores, shoe shops, grain mills, laundries, hospital and the Boston & Maine freight, baggage and express scales. I have also inspected those of farmers, poultry dealers, junk dealers and ice and coal dealers, and measured wood dealers' trucks.

All gasoline, grease and kerosene pumps have been inspected and sealed.

Respectfully submitted,

FRANK D. CALLAGHAN, SR., Sealer of Weights and Measures.

REPORT OF CHIEF ENGINEER OF FIRE DEPARTMENT

To the Honorable Mayor and City Council of the City of Rochester:

Gentlemen: In rendering my report of the Fire Department for the year ending December 31, 1950, we had a very low fire loss for the year. At this time I would suggest that consideration be given, in purchasing a tank truck, which is badly needed in the outlying sections of our City, and in our Civilian Defense set-up.

There were 285 alarms in the City of Rochester, which consisted of 69 box alarms, 216 still alarms, 4 engineer's calls, 15 brush fires, 17 car fires, 6 out-of-town calls, 2 false alarms in Rochester, 8 false alarms in East Rochester.

There were twenty-four calls in East Rochester and twenty-two calls in Gonic.

The estimated value of buildings and contents damaged by fire:

Estimated value of buildings	\$262,050.00
Insurance on same	196,300.00
Insurance paid	10,345.37
Estimated value of contents	82,200.00

Insurance on same	49.375.00
Insurance paid	3,857.12

At this time I wish to express my appreciation to his Honor, the Mayor, Members of the City Council, Committee on Fire Department, the Police Department, the Board of Deputies, and Members of the Department, and to all other persons who have rendered us help throughout the year.

Respectfully submitted,

R. G. SEAVEY, Chief Engineer.

REPORT OF BOARD OF HEALTH

REPORT OF THE PLANNING BOARD

To the Honorable Mayor and City Council, Rochester, N. H.: Gentlemen:

The Planning Board was instituted in August, 1941, under Mayor Charles H. Felker. It is a fact-finding board serving without pay. The members may investigate any project beneficial or detrimental to the City on their own initiative or at the request of citizens or the City Council.

The Planning Board should be requested to do more work. Only one project has been referred to them the past year.

Present members and terms of office are as follows:

Ex-Officio Mayor C. Wesley Lyons	1951
Ex-Officio J. Stacy Tripp	1951
Ex-Officio Norman J. Raitt	1951
Albert C. Hervey	1951
Ruth Hersom	1952

REPORT OF LIBRARIAN

To the Board of Trustees of the Rochester Public Library:

Gentlemen: The report for the year ending December 15, 1950, brings us to the close of the fifty-seventh year in our library's history and marks a mid-century in our nation's history. Let us, therefore, look behind this invisible curtain of time to the year 1900, when our population was 8,027, when the library had 6,814 volumes (not even one book to a person), when only one-fourth of the number of residents were library borrowers and when circulation was 3.5 per capita. This first act of the century of time has shown that books and reading do survive and flourish in spite of all the faster, more sensational media of information and amusement which have been sold to the people during that 50 years. Our total figures of use for this year, although not reaching the depression years' all-time high in library reports, is the highest since the up-swing began in 1942, a total of 72,350. Compared with 1900 we have a population of 13,768, the library has three books for each person, one-third of the people are library borrowers, circulation is 5.25 books per capita and the reading rooms have attracted three times as many readers. A good record of the tenacity of books.

Breaking down our total figure and analyzing it for reasons of increase or decrease in the various subjects we were sure to find an increase in religion and philosophy, an increase of 39 per cent, an indication of a people seeking to form opinions in a warped world and striving to set standards for a better world. The decrease of 30 per cent in fiction and 10 per cent in useful as well as fine arts was startling but not wholly unexpected. Our monthly figures began to decline with the Korean outbreak and the frenzied buying of television sets. Among publishers the influence of television has been the most discussed and unsolved question of the year. They have availed themselves of the new medium to advertise their books, they have denounced it, pretended to welcome it, discounted its importance. But none have ignored it. Neither can librarians. The decrease in fiction and the arts seems directly assigned to the call of the TV. Reading for enjoyment and handicraft cannot be combined with watching boxing bouts and wrestling matches. According to January, 1951, issue of Radio and Television News there are 10 million sets for our 150,520,198 people in the United States or a TV set for every fifteen people. But as proven in the cases of moving pictures and radio, these media are at best ephemeral. producing a quick reaction, changing opinions overnight. Books have a weight and depth of penetration, are the landmarks of our progress and will shape our goal.

Behind this façade of statistics is that part of the work which cannot be resolved into figures: the exhibits, the special book displays, the instruction in library procedure to many school classes and scout troops, the neighborhood library meeting and the inventorying of every furniture item in the library

by room. Also every book in the reference room and children's room, every book in philosophy and science and one-half of all fiction titles were appraised, resulting in discarding and basement stacking hundreds of volumes.

In the juvenile department there has been a satisfying increase in circulation and readers. We feel that this is largely due to two main factors. First with the help of our libraryminded teachers and with the addition of varied new books we have interested many children in enlarged reading horizons of more lasting value than the ever-present comics. Second by re-arranging the layout of the room we have made it more attractive as well as easier and quicker for individual children to find books suitable for their age and interests. Special events have punctuated the passing seasons. The third year of the story hour arranged by the Rochester Woman's Club and the summer reading contests sponsored by three elementary grade teachers. The department sustained a loss in the retirement of Mrs. Evans in September. During the seven years that she had been in charge of work with children she had endeared herself to all the girls and boys and to their parents. She is greatly missed. Miss Seavey, who was a regular staff member and fully acquainted with the department, was promoted to succeed Mrs. Evans.

Another resignation was in the Gonic agency. Mrs. Lunt, who had done such excellent work since March, 1948, has been succeeded by Miss Osborn and circulation continues to flourish, particularly among the children. Both agencies show a slight decrease in figures. Gonic because of the lapse of service from June until November and East Rochester seems due to the removal of many families from that area after the closing of the Cocheco Manufacturing Company. The collection of books at the Gafney Home for the Aged is greatly appreciated by the readers there. Although no accurate numerical record can be kept Mrs. Hutchinson tells us that last month over forty books were read in the Home. The reports of the other two agencies will be found in the table of statistics.

With the repairing and refinishing done in 1949 and 1950 all the rooms in front of and including the counter room (with the exception of the children's room) on the first floor and all basement rooms are in good repair. Much exterior work will have to be done this year. Roofs repaired, window frames replaced where needed and all others painted, doors either replaced or refinished and the lawn and shrubs need a professional hand. The children's room must be redecorated, shelves rebuilt, small tables and chairs installed to replace the adult size now in use and thus have a room suited to their size and needs. We have many items on the 1951 agenda which would improve the building and the service and we hope that world conditions will not render them impossible.

On our staff of assistants we are fortunate in having two trained substitutes who worked the many weeks needed because of illness among the regular members. We likewise had two trained vacation assistants who filled the vacation and leave-ofabsence vacancies from June to September. In September Mrs. Place, one of our substitutes, returned as a regular assistant after the promotion of Miss Seavey. All staff members have worked loyally and well to give the best service to all. Our Board members have given much time for consultation, advised us wisely, and helped in directing all the work of the year. The library has many good friends who remembered it with gifts or words of commendation. We thank all associates and donors.

Respectfully submitted,

E. VELMA FOSS,

Librarian.

HARRY S. JOHNSON,

Treasurer.

I have examined the receipts and expenditures of the financial reports of the librarian, E. Velma Foss, and the treasurer, Harry S. Johnson. I find them correctly cast and properly vouched.

J. STACY TRIPP, Secretary of the Board of Trustees.

Rochester, N. H., January 22, 1951.

Annual Report of the

SCHOOL BOARD OF THE CITY OF ROCHESTER

For the Year Ending December 31, 1950

School Board—City of Rochester

As Organized for 1950

Chairman, Hon. C. WESLEY LYONS

Ward One—Vernard W. Elliott, Robert P. Wilson.
Ward Two—Burton R. Tebbetts, Kennett R. Kendall.
Ward Three—Mary A. Hamel, Robert W. Watson.
Ward Four—Arthur J. Leblond, Leo E. Beaudoin.
Ward Five—Mary D. Benner, Robert D. Marsh.
Ward Six—J. Hervey Edgerly, Arnold T. Clement.

STANDING COMMITTEES, 1950

Finances—Mayor, Edgerly, Watson.
Teachers and Salaries—Marsh, Wilson, Kendall, Tebbetts, Beaudoin.
Studies, Textbooks and Supplies—Hamel, Kendall, Beaudoin.
Schoolhouses and Grounds—Edgerly, Clement, Leblond.
Transportation—Elliott, Benner, Tebbetts.
Vocational Training—Benner, Marsh, Watson.
Athletics—Edgerly, Wilson, Benner, Beaudoin, Tebbetts.

School Board—City of Rochester

As Organized for 1951

Chairman, Hon. C. Wesley Lyons

Ward One—Robert P. Wilson, Reginald G. Hurd. Ward Two—Kennett R. Kendall, Charles W. Varney, Jr. Ward Three—Robert W. Watson, John M. Meader. Ward Four—Leo E. Beaudoin, Arthur J. Leblond. Ward Five—Robert D. Marsh, Mary D. Benner. Ward Six—Arnold T. Clement, J. Hervey Edgerly.

SUPERINTENDENT OF SCHOOLS AND SECRETARY TO THE BOARD

JOHN H. FRYE

Office at City Building. Office Hours: 4:00 to 5:00 P. M. on school days. Residence, 21 King Street.

SECRETARY TO THE SUPERINTENDENT OF SCHOOLS Myrtle Lowe Cheney

Office Hours: 8:00 to 11:30 A. M., 1:00 to 5:00 P. M. on school days.

ATTENDANCE OFFICER

C. EDWARD GOODWIN

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Rochester School Board:

This is my second report and the fifty-ninth in the series of annual reports of superintendents of schools in Rochester, N. H. The annual reports of the Spaulding High School Principal, the School Nurse, and the Librarian are submitted herewith.

These reports are supplemented with statistical information concerning personnel, enrollments and finance.

CHANGES IN SCHOOL PERSONNEL

The following teachers resigned at the close of the school year ending in June, 1950: Rachel Kendrick, science and geography; John McGrail, physical education; J. Colin Pushee, English and forensics; and Elizabeth Plummer, East Rochester, Grade 3.

New teachers employed by the school department during the last year include: Virginia L. Bretsch, English; Donald Clark, general science; Ernest L. Davis, Jr., general science and athletics; Morelle M. Connell, English and public speaking; Hazel Fay, East Rochester, Grade 3; Belle Morse, elementary reading. Virginia L. Bretsch, having resigned in October, 1950, was replaced by Mary Berzunza.

Bernice C. Peters was elected as Secretary to the Principal at Spaulding High School, replacing Ethelyn E. Gibb who resigned in November, 1950.

ORGANIZATION

The increasing number of pupils in the Rochester elementary schools makes it necessary to transport certain pupils to equalize the enrollments in the several schools. Other pupils living at about equal distances from two schools may have to be reassigned in order to further equalize the grade enrollments. The school census indicates that additional classrooms will soon be occupied.

Additional transportation problems will appear as the overflow of pupils from several areas and schools are enrolled in one classroom. The problem is one of administration and with the cooperation of parents the educational opportunities of the children may be improved rather than lessened. We are fortunate to have classrooms readily available for an enlarged school population.

CURRICULUM AND INSTRUCTION

Sound educational programs that place major emphasis upon the growth and development of the whole child are the results of careful and deliberate planning. In order that every child in the community may benefit as much as possible from his school experiences more information concerning the growth of each child is being secured and recorded in the Rochester schools in order that needed services may be provided. Instruction is being modified accordingly.

The services of a helping teacher is being provided in the elementary schools with special classes in reading for slow pupils.

An enriched program for college preparatory pupils in high school who possess the necessary ability and interest, as determined by the results of adequate testing programs and other factors, is also being given careful consideration.

Excellent textbooks are provided in the Rochester schools by a program of constant revision. A new social studies textbook series has been provided recently for grades 3 to 6 inclusive. New health books and many replacements are also needed. The high cost of books is enhanced by less durable construction of them.

Sixteen members of the faculty have advanced themselves professionally by attendance at the last session of summer school and other teachers are now enrolled in various extension courses for further improvement according to their special interests.

Adult evening classes in vocational subjects are being offered at Spaulding High School.

Classes in First Aid are being organized for teachers and citizens in cooperation with the American Red Cross and the Committees for Civilian Defense.

The impact of impending mobilization and war is a stunning blow to educational programs designed for the welfare of youth. As the schools participate in the educational programs for civilian defense of material things they should seek to preserve the ideals on which good citizenship is founded. The high morale of American youth in school must be maintained. The inspired leadership of excellent teachers is needed more than ever before for many obvious reasons. The teacher famine is without doubt one of the most serious problems in public education today.

THE SCHOOL BUILDINGS AND GROUNDS

The following major improvements have been made in the physical plants during the year 1950: At Spaulding High School:

A new ceiling in the gymnasium.
 A new fire brick wall in one boiler.

- A complete overhaul of both oil burners in the heating plant.
- 4. The installation of new metal treads on the stairway leading to the Wakefield Street entrance.
- Drapes and curtains in the auditorium and library cleaned, repaired and reversed.

6. The stage equipment overhauled.

7. Eight classrooms, five toilets, and the building entrances redecorated with fresh paint.

 The bleachers on the athletic field repaired and painted.

9. A new Universal table saw installed in the cabinet shop.

10. A Commercial size deep freeze unit installed for the school lunch program.

In the elementary schools:

Desks sanded and varnished as needed.

2. New front porch at Allen School.

3. Regular classrooms at Allen School redecorated with fresh paint.

4. New fluorescent lights installed at School Street School.

 Commercial size automatic dish washing machines installed at the East Rochester, Gonic and School Street schools.

Venetian blinds installed in several classrooms to reduce glare from direct sunlight without darkening the rooms.

 Most of the blackboards refinished with a non-glare green surface and the bulletin boards redecorated with light paint.

8. City gas outlets installed at School Street and Gonic Schools.

 Additional radiation installed in the assembly room at East Rochester.

 A new fence and sidewalk constructed along the roadway and playground at the Maple Street School.

11. New furniture provided for the additional classroom at Gonic.

12. A new floor in Grade 3 at East Rochester.

The school board has authorized the purchase of numerous miscellaneous plumbing and maintenance fixtures, the installation of which are incomplete due to delays in shipment from the factory.

More money is needed for the maintenance and improvements of the several school buildings within the next few years. The school buildings in Rochester represent a large investment. At the present time there is a need for many special repairs. It seems that recommendations for the school budget should include a percentage of valuation amount to provide for this annual depreciation. Owners of private property and real estate dealers find this to be a sound business practice. The general depreciation on public buildings is ofttimes overlooked or delayed until costly repairs become necessary.

The modernization of the five elementary schools in Rochester is under way but there is yet much to be done before our classrooms will be well equipped physically. As the school population increases several rooms now used for special activi-

ties will be needed as classrooms, the purpose for which they were originally constructed. Additions to several of the elementary schools should be considered sooner or later if the present population trends continue along with the demand for school lunches, physical education, music, and the activities of an enriched program. The use of these proposed rooms as community centers for activities when the schools are not in session would be of great value to adults and children.

The rental of school property for public use by organizations outside the school is a desirable practice. The extensive use of the school buildings as activity centers in Rochester requires additional maintenance services. Adequate supervision and care of school property is a heavy burden for the school department now that the buildings and grounds are used almost continuously by adults and children.

FINANCES

The public schools of America passed the crisis of World War II with some uncertainties. Sincere promises of better salaries for our teachers, better schools for our children, and better hopes for our people were fulfilled in part by the tax-payer. However, the depreciated value of the dollar due to inflation has sabotaged many things including the operation of our schools. Inflation has now become our enemies' strongest ally and the price of freedom will be high.

The amount of taxable property in Rochester in proportion to the number of pupils enrolled in the schools makes it difficult to reconcile a low tax rate, and inflated economy, and a modern school program.

The following comparative study of expenditures does not include tuition payments which would substantially lessen the net cost of education in Rochester due to the large number of non-resident pupils enrolled in our schools.

COMPARATIVE PER PUPIL EXPENDITURES

For School Year Ending June 30, 1950

	State New Ham		
Administration	. 9.	25 8.75	
Instruction	. 127.

Capital Outlay	. 42.	28 5.44	
Debt and Interest	6.2	.08	
Totals	. \$245.	84 \$180.64	

CONCLUSION

The completion of this mid-century annual report is a timely opportunity for retrospection on the unique function of edu-

cation in building our American heritage. Present conditions emphasize the importance of education in preserving our freedom in the years to come. The challenge of the next half century places heavy responsibilities on our schools. They should be given high priority as we prepare to defend the principles on which democracy is founded.

I wish to extend my personal thanks and that of the other school department employees for your cooperation and good counsel in our combined efforts to make the Rochester schools all they should be.

Respectfully submitted,

JOHN H. FRYE, Superintendent of Schools.

REPORT OF HEADMASTER OF HIGH SCHOOL

February 5, 1951

Mr. John Frye Superintendent of Schools Rochester, New Hampshire

Dear Mr. Frye:

I hereby submit my report as Principal of Spaulding High School.

ENROLLMENT

	7	8	9	10	11	12	P.G.	Tls.
September, September,							$\begin{array}{c} 4 \\ 12 \end{array}$	

Our high school enrollment is lower by 23 and our junior high school enrollment higher by 28 than last year. Our total enrollment including our 12 Post Graduates is slightly above that of last year.

SUBJECT ENROLLMENT

1950-1951

A study of the following table will show comparatively little change from last year in the numbers enrolled, average class sizes or large and small classes. Last year's numbers are in parentheses.

ADMINISTRATION AND GUIDANCE

We made some advances in individualizing instruction this past year. Particularly we tried to improve in our English classes by more homogeneous grouping of pupils according to reading ability. We also had special college preparatory groups. This type of work will be carried further this year and greater emphasis placed upon the type of instruction for those going on to college as well as those going into business work.

Our freshmen and juniors have received tests in reading, fields of interest and in mental ability. The results of these tests are now in the hands of Mrs. John Chase and Mr. Edward Herman and they are discussing them with the individual pupils involved. We are also urging parents to come to school to discuss the implications of these tests with our counsellors.

All seniors interested in going on to post secondary schools were given a battery of tests by the University of New Hampshire testing bureau. The results of these tests will also be discussed with pupils and parents. In this way we hope to aid each pupil to find the type of education which will help him most in his chosen field.

Many more pupils each year are seeking our guidance counsellors for individual conferences. Every freshman and junior will have been contacted before the close of the year and plans laid for his future courses.

The results of the tests given by the World Book Company have been received but as yet these results have not been interpreted to us by their representative. The State Department of Education is planning an early meeting of representatives of all participating New Hampshire schools to discuss the test results and their meanings for us.

Twenty teachers of our staff have been taking a fifteenweek course with Dr. Arthur Shedd of the State Department of Education in Curriculum Problems of the Modern High School. We hope the results of this course will have a direct effect in our high school plans.

ATHLETICS AND PHYSICAL EDUCATION

Mrs. Sharon DiRubio and Mr. George Taylor supervise the physical education for girls and boys. Each pupil has two periods of physical education per week unless excused. Intramural programs provide opportunities to participate in sports in their season. Thus each boy or girl may develop his interest and ability in his chosen sport. Mr. Ernest Davis is in charge of the Intramural program for the boys.

Mr. Edward Herman, Director of Athletics, supervises all interscholastic games in all sports in addition to coaching varsity football and varsity baseball and freshman basketball. He is assisted by the following men:

Mr. George Taylor—Assistant in football
Mr. Harold Thompson—Junior varsity football
Mr. Ernest Davis—Junior varsity football
Mr. George Taylor—Varsity basketball
Mr. Theodore Lylis—Varsity track
Mr. Benjamin Mooney—Assistant track
Mr. Charles Beard—Tennis

It is worthy of note that our football team won from Dover this year for the first time in sixteen years. This was a surprise victory because the team lost all its previous games this past season. Congratulations were heaped upon Coaches Herman, Taylor and the players. The Rochester Athletic Association, the following Saturday, staged a big dance and open house in the gym. With parades in Dover and Rochester after the game, this victory was really celebrated.

Our 1950 basketball team was in the Class A Tournament and won the consolation game against Nashua. It was Mr. Taylor's first year as coach in Spaulding High School. His team was written up as "very well coached and drilled in the fundamentals." It was certainly a credit to Spaulding High School in appearance, ability and sportsmanship.

Our track team, under Coaches Theodore Lylis and Benjamin Mooney, was also outstanding this year as it won the State Championship at Durham, New Hampshire. The Rochester Athletic Association staged a party for this group, too, with "Bump" Hadley as the main speaker.

CO-CURRICULAR ACTIVITIES

Co-curricular activities form an important part in the school life of every child. These activities can only be carried on with the help of interested teachers and in our school are supervised by the following:

Also.

STUDENT ACTIVITY ASSOCIATION

The Student Activity Council, elected by the students, meets each week with its adviser, Mr. Hanson. It is the only group that can speak for the student body. While its original work was practically entirely with finances, they now act as a clearing house for all student problems. Any subject concerning the students may be brought before this council and receive a thorough discussion. The recommendations are then passed to the Principal for his review. Many recommendations have been adopted and are in effect now. A financial statement is appended.

CAFETERIA

The Cafeteria Staff, Mrs. Cassie Richardson, supervisor, continues its excellent work of providing nourishing lunches attractively served. A real problem exists, however, when children cannot eat the regular lunch because of personal likes and dislikes. It is necessary for us under the Federal Lunch Program to serve one hot plate and no a la carte service. Therefore we have no opportunity to cater to individual wishes.

Our government subsidy has been cut from nine cents to seven cents and probably will be cut to five cents this next month on type A lunches. This will necessitate a change in our prices.

A financial statement is appended.

GRADUATES OF 1950

The graduating class of 1950 numbered 144. Of this number 28 enrolled in four-year colleges as follows:

22 University of New Hampshire 2 Keene Teachers College 1 Plymouth Teachers College

- 1 Bates
- 1 Bowdoin 1 Maine Maritime Academy

Others have continued their training by attending business colleges, nursing schools and doing post graduate work. In all fifty-five are continuing their formal education.

Fifty-seven are working in factories, stores and shops in and near Rochester; twenty-one are at home; three are married and eight joined the service.

RECOMMENDATIONS

One of our most pressing problems is the continuation of our athletic program under rising costs and decreased receipts. In order to have the type of program I think you want us to have we shall need assistance from the budget of the school board.

CONCLUSION

I am appreciative of the privilege of serving as Principal of Spaulding High School and wish to thank the superintendent and school board for their continued support and excellent cooperation.

Respectfully yours,

JOHN M. COTTON.

Principal.

REMARKS:

Circulation has increased steadily as each month of the school year showed increase over the corresponding month of the previous year. There appears to be a healthy growth.

Attendance includes pupils who come to the library just to

Attendance includes pupils who come to the library just to use magazines and newspapers for their own amusement as well as those pupils who come for required reading. Our purpose has been to satisfy the needs of both groups. Outside of school our boys and girls are constantly exposed to the trashy and the cheap in their reading matter, therefore the library should make them familiar with books and magazines that can satisfy their thirst for adventure and excitement, and at the same time plant some standards of literary values in their minds. If we can send them out of school feeling that it is fun to read a book and that they enjoy the better written ones, then we have opened the door for them to a form of recreation that will enrich their whole lives. For this reason our library is definitely a pleasure library as well as a students' library.

It is becoming a common practice for a teacher to bring her whole class to the library to help them herself in the selection of books or the search for reference materials. During such periods the library is closed to pleasure readers and the teacher's class has the right of way over any other pupils using reference materials. It has proved an excellent means of making not only the class but the teacher acquainted with the resources of our library.

The book collection begins to look like a high school library and the catalogue increases. In addition to the volumes shelflisted there are still a good many books that can be made available if needed, so that our total of volumes recorded in the shelf list is not our complete holding. When the present librarian took over the direction of the library in December, 1944, there were only 188 books shelf-listed although 1,800 were shown in the accession book. Many of these were discarded textbooks sometimes twenty copies of a single title. Among these were other books of outstanding value. It has been the plan of the librarian to weed out gradually the useless or misleading material; to reserve in a conference room the questionable titles; to fill in as rapidly as funds permitted new titles recommended by authorities on high school libraries. All books purchased have been fully catalogued, and most of those remaining in the reading room. Those shelf-listed but not catalogued are so indicated on their shelf list cards and will be catalogued as soon as possible. There has been little opportunity for this clerical work during school hours because the readers in the library have required attention.

The Library Staff has increased in effectiveness year by year. Its members serve in the library before school every day and give at least one study hall period per week. They are held to a definite course of training with tests to be passed at each stage. These people keep the book shelves in order, help prepare new books for circulation, do a certain amount of mending, take charge, at times, of the circulation desk, assist in preparing material for the vertical file, check in new magazines and keep old ones filed for reference. Their training and supervision claim a share of the librarian's time, but in the end that is more than repaid in the duties performed.

Two especial gains have been accomplished for the library in the last two years by the Administration: first, all study halls have been scheduled elsewhere, leaving the library to function as it should without encumbrance; secondly, there has been a definite sum of money set aside in the budget for books and binding. These two practices, more than anything else, have been responsible for the growth in attendance and circulation.

As always, the librarian is conscious of the prompt and efficient cooperation given by the headmaster in all library problems that are brought to him. Unpaid fines and long overdue books are not a nightmare in this library because the delinquent pupil knows that back of the librarian stands the headmaster. This report cannot be closed without a word of gratitude to his office, to the teachers and the janitorial staff who have all helped to make the work go forward, so that the position of librarian at Spaulding is a delightful post.

Respectfully submitted,

MARION D. UNDERHILL, Librarian.

REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools:

I herewith submit my report as school nurse for the year of 1950.

This report is intended to explain my work in the schools and to let the people of Rochester know of the work which is being done by persons who are interested in the welfare of our children.

Routine health services, consisting of weighing and measuring, vision and hearing testing, physical inspections, and frequent hair and skin inspections, were carried on at the time of my weekly visits to the schools. Parents were notified by written notice, telephone, or home visit of the defects found and they have cooperated very well in having the necessary corrections made. Considerable corrective work has been accomplished for the underprivileged children through the generosity of the Kiwanis Club and the Lions Club.

Welfare work, consisting principally, of securing adequate clothing for needy children consumes considerable time during the year. Local charitable organizations have to be contacted to finance the buying of this clothing and the children have to be taken to the stores for fittings. A sizeable donation was received from a person who wishes to remain anonymous. This money is being used to provide necessities for these less fortunate children.

The communicable disease which was prevalent in 1950 was mumps. This epidemic caused a large number of school absences. The immunization program for the control of communicable diseases is sponsored by the Rochester Visiting Nurse Association. I assist at the clinics which are held each spring.

In connection with the physical examinations made each year by Dr. Albert Barcomb, School Physician, we are planning to have the urine of each pupil analyzed. The urines are to be collected and taken to Dr. Barcomb's office for examination. Dr. Barcomb has offered to do this as an experiment to determine whether or not it is of sufficient value in detecting abnormal conditions. The examinations are scheduled, at present, so that each child is examined by the doctor four times during his twelve years of school. I sincerely appreciate the help Dr. Barcomb has given me in carrying out the health program in our schools.

The Rochester Dental Clinic was continued during 1950. This clinic is intended for the correction of dental defects of children whose parents are not in a position to afford such care. The children are selected by me with the help of the teachers. An earnest effort is made to select the right group. Each dentist allots the equivalent of two half days each month from Novem-

ber until June. Drs. Wilfred Roy and Roland P. Cullen do the clinic work. They receive a small fee for their services, but, they should be commended for the fine work that they are doing.

Pre-school conferences were held in the spring of the year. The children who were to enter school in September were invited to attend school for one-half day. The first grade teachers carried on, as far as possible, a regular school session. The children were given physical inspections, vision tests, and were weighed and measured by me. The parents were invited to come in the afternoon and this afforded the teacher and myself the opportunity to talk with the parent. A more extensive program is being planned for the coming spring conferences. Dr. Barcomb has talked with the local doctors and some have agreed to do complete physical examinations on the children who attend. This service should prove very valuable as it will enable the parents to have necessary corrections made during the summer months and the children will enter school in the best physical condition possible.

Mental Hygiene Clinics, under the direction of Dr. Anna Philbrook, were held each month from January to June. Dr. Philbrook and her staff examine and treat maladjusted children. Dr. Philbrook has been unable to resume her clinic schedule this year but it is hoped that in the near future that she will again have monthly clinics in Rochester.

Six Orthopedic Diagnostic Clinics, under the direction of the Crippled Children Services of the State Board of Health, were held at the Frisbie Memorial Hospital. Drs. Ezra Jones, David Webster, and Simon Stone examine and treat the children referred to the clinic. The physiotherapy treatments ordered are carried out at a clinic which is held each month at the Spaulding High School. I assist at each clinic.

The Red Cross Motor Corps is very generous in their efforts to provide transportation for children to the various clinics. Weekly trips are made to the Portsmouth Rehabilitation Center. Transportation is furnished for the bi-monthly Orthopedic Diagnostic Clinic at the local hospital and for the monthly treatment clinic at the Spaulding High School. Numerous trips are made throughout the year to Manchester, Concord, and Boston. Mrs. Elery Lyndes, Motor Corps Captain, is always willing and able to secure a driver for these trips. Thanks should be extended to her and to the drivers for their cooperation.

I want, Mr. Frye, to thank you and the teachers for the cooperation I have received during the year of 1950.

Respectfully yours,

NORA C. SCAHILL, R. N., School Nurse.

"NO SCHOOL" DAYS

September 3 September 4 Labor Day Teachers' Meeting Children's Day September 17 Columbus Day Armistice Day October 12 Columbus Day November 12 Armistice Day November 22-23 Thanksgiving Recess December 31-New Year's Recess Memorial Day January 1 30 May

NO SCHOOL SIGNAL

Twenty-two upon the fire alarm will be the signal for no school. When sounded at 7:05 and 7:45 all schools will be closed for the day. When sounded at 11:15 pupils will be dismissed at the usual morning closing hour for the rest of the day. The same signals will be sounded at Gonic and East Rochester, and in the morning only, at the Spaulding Fibre Co., North Rochester. Notification will also be broadcast from Station WWNH and Station WHEB at 7:15 and 7:45.

Due to the regulation of the State Board of Education which requires sessions on at least 180 days schools will not be closed except in case of extremely hazardous conditions. Parents

closed except in case of extremely hazardous conditions. Parents should consider the welfare of children living at a considerable distance from the school and regulate the attendance accord-

ingly.

INAUGURAL ADDRESS

by C. Wesley Lyons, Mayor January 3, 1951

Gentlemen of the Council:

Tonight, we have assembled here for the purpose of organizing the government of the municipality for the year 1951, in accord with the Charter of the City of Rochester. Although these inaugural exercises may differ very little from any of those in the preceding years, you as Gentlemen of the Council and the citizens of our city have the satisfaction of knowing that they have a city government which has been a government close to the people. By this, it is my desire to convey that you as Gentlemen of the Council and all of those who have to do with the functioning of the affairs of Rochester, hold the interests of their citizens as their first consideration. I am also sure that, in return, the citizens who have elected you have done so because you have their confidence; and by the action that you have taken in their affairs, you have gained this standing.

It is not my intention at this time to have a lengthy inaugural address. You as Gentlemen of the Council are as familiar as I with the existing affairs and the operation of your city government. You are familiar with the needs. As you have heard me say many times before, I will again repeat that Rochester is a fine city. The services that we give to our residents are comparable with only a few municipalities in this area, and I will further repeat that Rochester is a city of friendly people, working together with one thought in mind, and that is that we may be progressive and clean, and make this community one to which people everywhere may wish to come, whether as citizens, just to make a friendly call, or to shop in our mercantile establishments, and that men and women may be employed in our up-to-date, cooperative industries. We are fortunate in the fact that we have diversified industry.

Your forethought has been definitely shown by the building of your new Public Works Garage, and by replacing the location of your former one with a free municipal parking lot. Yes, we have been a long time perhaps, in accomplishing this, but it has paid off. The thought and the time that have been devoted to this one project have enabled you to have the type of building equivalent to our needs, which together with the building of this municipal parking lot, has in no wise imposed a financial burden upon our taxpayers.

This has not been the only project that has taken time, thought and consideration. The development of our water system has been in that same category. We all know the seriousness of the situation. We appreciate that sometime early this late summer and fall, you were much concerned as to whether we would have sufficient water supply, should the drought continue. The fall rains came and we are absolutely safe again. These

chances cannot be taken too often, or need they be taken. I think, perhaps, and I will say that for the last three years, we have had various meetings and many studies, proposals and reports, which have been presented to you, not only individual plans but a number of plans. Together with this, you have had presented to you, reports of financial analysis as to how the necessary notes may be amortized from earnings of the system. You could have easily, two years ago, engaged engineers and have made contracts for the development of this system. This would not have been wise because I am fully convinced and know that at that time neither you nor myself were confident that this would have been the right plan or the right procedure for the development of our system. Tonight we are, I believe, fully convinced that the increase of storage, which has been recommended to us of approximately 300,000,000 gallons, the laying of a new main from our reservoir into town, and a contemplated new line from Eastern Avenue to East Rochester will solve the problem for generations, and when this development is undertaken, we must not forget those two areas of Rochester that need water desperately and have needed it for a long while. I am referring to the Milton Road and the Old Dover Road.

So now that we are organized for 1951, let us not as individual committees but as a Council as a whole, take definite steps in the development of the Rochester water system, which not only you and I but the citizens of Rochester know must be undertaken.

In the past two years, you have made such changes in the departments of your municipality as to enable them to operate more efficiently. I am referring most especially to the Department of Public Works, which has consolidated its various divisions under one head in one department; and with the recent moving of this department into a new building, which has sufficient equipment, and with the proposed program of operation, you will operate in a businesslike and efficient manner. For quite some time we have devoted our thoughts to the improving and the building up with new equipment of the Public Works, Fire and Police Departments. You may well be proud of your accomplishments.

However, during these past years we have devoted little, if any, thought to the improvement of our Administrative Departments, and I am referring to our City Clerk's, Accounting, Board of Assessors' and Tax Collector's Offices. These offices are operating approximately the same as they were when we received our charter as a city, and it is needless to remind you that great changes have taken place during this past period of more than fifty years. Now, I am definitely not inferring any criticism on the offices of these departments or their operation, but I do know that we as Gentlemen of the Council have never given them any consideration. We have been on our toes in bringing all other departments up to peak production and efficiency by the installation of new automotive equipment, two-way radios or any other materials that might be necessary to build them up where they would be on a par with any other city in the State of New Hampshire. But while we have devoted

our thoughts to these departments, we have given no consideration to these administrative offices. At this time I am going to suggest that the Finance Committee take immediate steps to mechanize these offices. In our City Clerk's Office, we should have equipment for the metered water billing and the posting of payments with a ledger system which would not only make less work for that department but would also make our records more exact. Under this department also comes our payroll procedure. I am mentioning these two large items. Many others from this City Clerk's Office would be operated, using this same equipment. Our Board of Assessors have been conducting the affairs of their office with no changes for many years, and I definitely again will state that I am not criticizing the Board of Assessors or the way they are doing their work, but I most certainly suggest that they receive some consideration as to installation of more modern and up-to-date methods. Naturally, they could have done nothing about this because we as Gentlemen of the Council provided no funds for them to make changes. Nor were the Finance Committee able to do this because they, themselves, had not asked for moneys to work with.

For some time I have obtained information regarding the advisability of having an aerial map of our city. A few years ago, I thought that Rochester was not a large enough municipality to warrant the expense of an aerial map, but during this past year most especially, I have become fully convinced of this necessity. I have found that other cities throughout New Hampshire and this section of New England are taking these steps. By a map of this type broken into sections, you have your picture before you of each portion of the town or city, which is transferred into a ledger with each plot numbered. This is very essential for your Assessors' Office, and not only for this office but it can be used throughout the various departments of our city, most especially by the Tax Collector's Office and the Public Works and Fire Departments.

I further recommend that the Finance Committee immediately obtain information for a filing system and equipment for the above office, and also for the closely connected office of the Tax Collector, which should be equipped mechanically for the billing of our tax accounts; and this most certainly should be done on every individual piece of property that one might possess. For an example: a citizen owns more than one parcel; today, you receive one bill—so many thousands at such a tax rate—and when it comes time to make your federal return or to keep an exact record of your year's business, it is necessary that you go back to your Tax Collector's Office and get this breakdown. With modern, mechanized equipment, the name of the property owner, the amount which he owes on his assessed valuation in duplicate ledger card for the files is done in one operation. This, I will admit, is a very brief overall picture but in closing on this particular subject, let me make this statement that individual business, many times handling only a small proportion of the amount of moneys and service that we give, could not afford to operate without modern equipment. Therefore, we as a municipality who are handling the moneys of our taxpayers and citizens, most certainly should take immediate

steps to mechanize these departments for the convenience not only of these heads but of all our citizens. Within a few days, I will bring information regarding this to the members of the Finance Committee.

At some of my past inaugural addresses, I have broken down the several departments and discussed them individually, and as I have already stated, the Gentlemen of the Council and the Committees are familiar with these departments, and at this time I am going to speak of them briefly, with the exception of our school system.

In the setting up of our Department of Public Works in 1950, I am further convinced that this was a progressive step. It has worked well, and with the new Public Works Garage which we are now occupying, and with the completion of the final details of the operation of this department, we will have accomplished our objective.

The foresight of you Gentlemen in the purchasing of equipment for our Fire Department has put us on a par with any other department of comparable size. I feel that not only you, as Gentlemen of the Council, but our citizens are very proud of the equipment and the operation of this department. Our Polic Department is functioning exceptionally well. Their automotive equipment, purchased new this past year, and their additional office equipment with extra files for their index system, has placed them in a position where they can give service and protection to their citizens and also cooperate with our neighboring cities and towns. At this time I want to recognize the importance of the friendly relationship and cooperation existing in this department toward other communities. This not only assists a Police Department in being efficient, but also stimulates exceptional good will throughout the area.

It is my desire to recognize at this time the efforts devoted by the Committee on Public Buildings in the remodeling and the painting of our Gonic Hall. This project is one that not only the people of Gonic should be proud of, but Rochester as a whole. At the moment, our Public Buildings are in average condition, and I am extremely happy that East Rochester and Gonic now have halls which are presentable and clean for the convenience of those gatherings that are held there, and also for the housing of the new fire equipment which was installed in 1949, and I further know that with the installation of automatic heat, we are not only safeguarding this equipment but are also giving a maximum amount of heat at a reasonable expenditure. And in bringing to your attention the efforts of the Committee on Public Buildings, I also want to convey my thanks to the Special Building Committee on the Public Works Garage and the Municipal Parking Lot for their cooperative efforts and the unlimited time that they have devoted to this project.

For many years, democracy has been taken for granted as a part of our American heritage. Recent trends in world affairs have given a new meaning and a deeper significance to the cause of human freedom. There is a growing realization that freedom is not being bestowed automatically upon each genera-

tion, but is something which must be developed, safeguarded and exercised continuously by each individual. The total disregard for the worth and dignity of the individual in totalitarian governments has created renewed interest and concern for the improvement of human relations. The framers of our Constitution saw clearly the need for community action concerning knowledge and learning as essential factors in the preservation of free government. Thoughtful citizens now recognize that the survival of democracy depends on greater equality of opportunity for all persons irrespective of race, color or creed. In a world in which people are becoming more dependent upon one another for their existence, the need for cooperative and more apparent.

The continued development of the American way of life places a considerable demand on our public school system. The teacher of the future must be prepared for responsibilities previously unknown to the profession. The ever-increasing number of pupils enrolled, the new demands of modern curriculums, and additional services will require increased financial support. Like any other skilled workman, the good teacher to be effective must have appropriate materials and tools with which to work.

The City of Rochester has been able over a period of years to provide satisfactory educational opportunities for its youth. At the present time, our schools are equipped to provide an adequate program at a per capita cost of instruction that is well below the state average. The people of Rochester accept and treasure the values from which democracy received its deepest meaning and will continue to provide good schools as a sound investment in abiding values. As the new needs of our schools are formulated to provide for the mental, physical, and emotional well-being of our youth during the era of a cold war or its consequences, they must be analyzed with care and financed accordingly, with educational outcomes and the welfare of youth as the determining factors.

As I conclude these remarks regarding our individual departments, I take this as an opportune time to thank these heads, and I also recognize the assistance given by those men in our Department of Public Works who have been so cooperative, not only in their daily duties but in times of emergency when the hours have been long; our teachers who are responsible for the education of our children; the janitors who maintain our public buildings; and last but not least, those who serve us in our Administrative Departments, for their cooperation which they have so graciously given during this past year, and the above together with the consideration and assistance that has been given by you as Gentlemen of the Council has not only made possible an efficient and harmonious functioning of our affairs but has also made it a pleasant experience for me to be allowed to work with you.

At the regular December Council meeting as your Mayor and a member of the Finance Committee, I asked the heads of all our departments to immediately go to work in preparing the budget for 1951. In past years, we have operated our municipality for five months without a budget. Now that we have set up heads that are not to be re-elected each year, we should take advantage and immediately at the beginning of the year have a working budget for the operation of every department for 1951. Now, this can be accomplished. Even though, perhaps, the budget is not brought before the taxpayer at a public hearing until a later date, we will know where we stand financially.

With the assistance of our City Accountant, I prepared for you and the taxpayers of the City of Rochester, a pamphlet which was enclosed in every tax bill and placed in convenient places in the City Clerk's Office and in the Office of our Tax Collector, so that the taxpayer might be enabled to have information as to where and for what department his tax dollar was spent. I, personally, have received many comments on this pamphlet. If it meets with the approval of you as Gentlemen of the Council, a pamphlet for 1951 will be prepared.

The accomplishments that you as Gentlemen of the Council have achieved during the past years have been outstanding. However, we must not become too elated with this success to the neglect of constant vigilance. High standards must continue to be maintained and constant check must be made to avert all losses. The cause of failure must be detrmined regularly or success will drift into failure. We live in a crucial period of history when men's consciences are being tried and human conduct molded. A municipality such as ours confers rights and privileges which entail also definite consequences. We must face these consequences by a devotion to principle and fair dealing with all. The duty of putting your program into effect depends upon the initiative and cooperation of each individual member of this Council. I sincerely believe that such a factual picture exists. May it continue to do so and may it never fail.

CITY GOVERNMENT

AS ORGANIZED JANUARY 1, 1951

Mayor, C. WESLEY LYONS

COUNCILMEN

Ward One-Roland C. White, Willis S. Pease, Frederick J. Grenier.

Ward Two-Ronald C. Taylor, Albert Nelson, Fredrick Max-field.

Ward Three—Charles C. Thompson, James E. Connelly, Sumner

W. Watson.

Ward Four—Raoul P. Aubin, Donald Sylvain, George J. Potvin. Ward Five—Weston H. Palmer, Chester D. Jefferson, Wilfrid T. Roy.

Ward Six-Vernon E. Hersom, George F. Wilson, Norman J. Raitt.

City Clerk-D. Arlene Baker.

City Treasurer-Harry S. Johnson.

City Accountant-J. Stacy Tripp.

City Solicitor-Paul B. Urion.
